SUMMARY

Data Analyst with 3 years of experience in designing and implementing scalable data pipelines using **Python, SQL, and Databricks**. Proficient in validating datasets for accuracy and consistency, building **end-to-end ETL workflows** with Delta Lake. Skilled in developing **analytical data models** to support BI and business reporting.

PROFESSIONAL EXPERIENCE

Accenture Private Solutions

Oct 2022 – Present

Analyst

Chennai

- Developed **50+ SQL queries** using joins, CTEs, and window functions to generate business-critical sales insights, improving query efficiency by **25%**.
- **Wrangled** multi-million row datasets using **Python Pandas & NumPy** to clean and standardize data, reducing missing values and inconsistencies by **40%**.
- **Automated** data quality checks in Python to validate schema, null handling, and duplicates, cutting manual effort by **70%**.
- **Built** end-to-end retail sales **data pipeline** in **Databricks**, processing **5M+ daily transaction records** from raw ingestion to Delta Lake for structured analytics.
- **Streamlined** ETL workflows by partitioning Delta tables on **region and product category**, improving query performance by **35%**.
- **Implemented** ACID-compliant **Delta Lake tables**, enabling efficient time-travel queries and **reducing** data reconciliation issues by **30%**.
- Designed **retail sales trend dashboards** using **SQL aggregations** and **Excel pivot tables**, providing clear visibility into top-selling products and seasonal demand to reduce data retrieval time by **20%**.
- Collaborated with cross-functional teams to define KPIs like **monthly revenue growth, top product categories, and regional performance**, driving **data-backed decision-making**.
- Documented and optimized data pipeline processes, improving **onboarding speed for new datasets by 40%** and ensuring scalability for future data volumes.
- Conducted performance tuning in SQL and Databricks jobs, reducing overall pipeline runtime from **2 hours to 45 minutes**.

EDUCATION

Madras Institute of Technology, Anna University

Chennai, Tamil Nadu

Bachelor of Engineering in Electronics and Communication

Aug 2018 - Jun 2022

CERTIFICATION

AZ-500 Microsoft Azure Security Engineer Associate

TECHNICAL SKILLS

Programming and Query Languages: Python, SQL

Tools & Libraries: Databricks, Excel, Pandas, NumPy, Seaborn, Matplotlib, Jira

Visualization Tools: Tableau

Cloud Platforms and Version Control: Azure, GitHub
